## Albercorp Micro-Ohmmeter Product Bulletin

### *Micro-Ohmmeter Battery Charger Notes*

The RT3-100P, RT10 and RT5-10 are the only Micro-Ohmmeters that have battery chargers. Of these units, the RT5-10 is the only one that has a charge light that gets dimmer as the batteries become fully charged. The lights on the other units remain fully illuminated while the charger is plugged in.

### *Micro-Ohmmeter RT3-100 Battery Note*

The following table indicates the Albercorp part number for batteries used in the RT3-100 Micro-Ohmmeter. If the battery type cannot readily be identified, call Albercorp for assistance.
